STORIES IN CALIFORNIA

California: Let's Stop Making History

Support the Governor's proposed \$200 million for forest restoration from the Greenhouse Gas Reduction Fund to curb the cycle of megafires.

Fires in California continue to set new records for the “largest,” “most damaging,” “worst air quality” and sadly, the “most deadly” we’ve ever seen.

Restoring Forests through Partnership:
Lessons Learned from
the French Meadows Project

Wildfires and Forest Resilience:
the case for ecological forestry
in the Sierra Nevada

A misty forest scene with tall evergreen trees. The sun is low in the sky, creating a soft glow and illuminating the mist. A small fire is visible in the distance on the ground.
